

COVID-19 Test Kit Collection Instructions

Only pupils in S4-6 who are **regularly attending TGS**, should be collecting a kit at this time. We have enough kits for all Senior Phase pupils so as and when you return to TGS you will be able to access a kit.

Pupils can collect their test kits from the Main School Office on Mon-Friday from 10am-1pm.

Physical distancing must be observed, and face coverings worn when attending for these purposes. Scottish Government Level 4 guidelines must still be adhered to when in our School building, i.e. face coverings in communal areas and classrooms, hand-washing, and social distancing in particular.

It is a regulatory requirement that a log is kept of test kits distributed to individuals and we need to record a few pieces of information at the point of distribution. For this reason, you must collect your own kit and not collect on behalf of others.

Kits cannot be distributed before the consent form has been completed, signed and returned.

Please note that we cannot accept electronic copies of the consent form. If you are unable to print and bring it with you on the first day you return to TGS, a copy can be collected from the main office and signed (or brought home for parent/carer to sign, if the child is under 16).
